### The Risk You Run!

You would probably refuse to endorse anyone's note, yet you might be willing to go on someone's bond.

As an endorser the term of the note fixes your liability, but as surety your liability may extend beyond your life and its burden fall upon your heirs.

If your employees are not bonded you are assuming the dual role of employer and surety.

The rainfall for the past few days was good for the wheat growers, but was not appreciated by those who still have cotton in the fields. The average in wheat in this county will be about the same as last year, but there is already some talk that the cotton acreage will be increased.

J. W. Murphy and Mrs. Georgia O. Taylor of this city were married yesterday morning at 9:30 o'clock by Rev. Fr. Wallrapp and immediately left for Oklahoma City and Lawton, where they will spend a few days. They will return to this city and make their home at 111 A. St., N. W.

W. F. Starin and wife of Kansas City are here for a few days. Mr. Starin is manager of the Liberty Flag and Decorating company and is here to see about securing contracts for decorating the streets for the Shriner's convention to be held here October 26th.

The Bass Furniture company, which opened a business house here about three months ago, have already outgrown their present quarters, which, by the way, is the largest store building in the state, and are having an annex to the building erected 46 x 75 feet which will be connected with the main floor by large archways and will facilitate the handling of their immense stock.

## To Signal the Operator

**WHEN** you have been given the wrong number, or for any other reason you wish to get the operator's attention at once, it is useless to "jiggle" the receiver hook.

When the receiver hook is moved up and down rapidly, the operator does not answer because the signal light on the switchboard does not flash and attract her attention.

The right way is to move the receiver hook up and down slowly, which causes the little switchboard light to glow and brings a prompt response from the operator.

Patience and deliberate action always result in lessening the delay and are a great aid to the operator in getting the right number for you.
